

# DATA VISUALIZATION AND ANNUAL REPORTING

## Data to be Visualized

- Academic Data
- Demographic Data

## Checklist:

- Is my **message** clear and did I make my point?
- Are the graphs **appropriate**? Was the right type of graph used and is all bias removed?
- Are the graphs **labeled**?
- Is the data labeled with a **date**?
- Is it **accessible** (colors are distinguishable, all necessary languages are provided, medium)?

## Recommended Next Steps:

- Know your audience and make sure your visuals can stand on their own. – DC PCSB
- Identify how different audiences use your report to inform how to display data and visuals - NYCDOE
- Know what message you are trying to convey with the data and visuals. - ICSB

## My Next Steps:
